Nic-tmpl.github.io + 541-601-2091 + [nic templepiano@gmail.com](mailto:nic templepiano@gmail.com) + Southern Oregon

## PROJECT EXPERIENCE

### Hidalgo — ([hidalgo.herokuapp.com](http://hidalgo.herokuapp.com))

A Fullstack ecommerce project. Implemented user signup and login using Passport. Created database using PSQL and node postgres. Frontend implemented with React, React-router v6, and Axios. Allows CRUD operations for Admin users.

### Reddtile — ([reddtile.netlify.app](http://reddtile.netlify.app))

Frontend clone of Reddit that queries Reddit JSON API for data. Designed and implemented frontend using React. Users can click through images and comments, search for posts, and see a list of top subreddits.

### Ashland Lindy Swing Society — ([Ashlandlindyswingsociety.com](http://Ashlandlindyswingsociety.com))

Static website built for Lindy Swing Society of Ashland, OR. Custom HTML and CSS.
